Julien Albertini and Alina Pimkina

**Empire Nature Collection** designed by Julien Albertini and Alina Pimkina, creators of **Asthetique Group**™. Manufactured in Connecticut, all designs are hand drawn/painted and then digitally printed. Each design features a dark and a light version. The paper is printed at 36" width with each design consisting of 2-3 unique panels, creating a true piece of art instead of an obvious repeat pattern. **Designer Sara Touijer** envisioned a nod to nature in the sumptuous bedroom that she designed for Holiday House/ Fall 2018. Abstract flowers throughout, reflect and amplify her theme. The most notable piece in the room is a stunning **carved wood wall installation** by **Hakwood** that Ms. Touijer specially commissioned for this celebrated designer show house. Flowers of varying heights and depths flow across the install that is placed over the **Hastens headboard**. [hakwood.com](http://hakwood.com)

New from removable wallpaper company, **Tempaper**, the Plaid wallpaper print can be used year round (think farmhouse modern) or as a seasonal accent that you can simply peel off when the holidays are over. Its removable nature allows decorators the freedom to get creative applying it to walls, staircase risers, desks, trays, you name it! [tempaper.com](http://tempaper.com)
